

**Prof Mark Lewis**

**Dean of School  
Professor of Musculoskeletal Biology**

**Centre Partner Institution – Loughborough University**

- Undergraduate studies in Biochemistry and Physiology at the [University of Reading](#) (1987-1990).
- MRC PhD studentship position at the [Institute of Obstetrics and Gynaecology, Royal Postgraduate Medical School \(University of London now Imperial College School of Medicine\)](#) (1990-1993). PhD in Biochemistry [OUTPUTS](#).
- Research Fellow in the [Department of Medicine at University College London Medical School](#) (1993-1995). [OUTPUTS](#).
- Research Lecturer at the [UCL Eastman Dental Institute](#) in December 1995 to develop the themes of craniofacial regeneration and repair. Promoted to Senior Lecturer in July 2002, Reader in Cell Biology in July 2007.
- Appointed to a Chair in Exercise Biochemistry and Cell Biology and established the Muscle Cellular and Molecular Physiology Research Group in the [Institute for Sport and Physical Activity Research in Bedford](#) in September 2009 to December 2011.
- Appointed to Head of [Department of Sport and Exercise Sciences, University of Bedfordshire](#) (September 2009 to December 2011).
- Appointed to Honorary Professor at the [UCL School of Life and Medical Sciences](#) in October 2009.
- Appointed to Visiting Professor in [Musculoskeletal Biology Research Group, School of Sport, Exercise and Health Sciences, Loughborough University](#) (October 2010 to December 2011).
- Appointed to Visiting Professor in [Cranfield Health, Cranfield University](#) in October 2010.
- Appointed to Professor of [Musculoskeletal Biology, School of Sport, Exercise and Health Sciences, Loughborough University](#) (January 2012).

Research interests:

- Muscle cellular and molecular physiology
- Biomedicine of sport and exercise
