

**Fiona Watt, B.Med.Sci, MBBS, PhD**

- **Associate Professor Honorary Consultant Rheumatologist, Nuffield Orthopaedic Centre**

**Partner Institution - University of Oxford**

Fiona is an associate professor at the Kennedy Institute of Rheumatology, NDORMS at the University of Oxford and was appointed as an honorary consultant rheumatologist at the Nuffield Orthopaedic Centre, Oxford in 2013. She leads the Clinical Translation theme within the [Centre for Osteoarthritis Pathogenesis Versus Arthritis](#).

She has a PhD in cartilage biochemistry from Imperial College London, and completed specialist training in rheumatology in West London.

Her research interest is in the diagnosis, stratification and treatment of osteoarthritis. Fiona leads a number of cohorts and clinical trials which focus on the treatment of this condition.

She is the lead of the Musculoskeletal Disorders Research Advisory Group lead for Versus Arthritis, and also a clinical spokeswoman for the charity. Fiona was awarded the British Society for Rheumatology's Michael Mason Prize in 2016 and a UKRI Future Leaders Fellowship in 2019 for her work exploring predictive biomarkers after joint injury.
